Green Cleaning Products

Health and Human Services Action Team

Shopping Checklist

- Baking soda
- Dish soap
- White vinegar
- Borax
- 3% Hydrogen peroxide
- Lemon juice
- Spray bottle

Important Tips

1

- Do not reuse spray bottles that held commercial cleaning products. The residues can create hazardous byproducts.
- Always read product labels to determine how to properly use the product

Tub & Tile Cleaner

2

Create a paste of the following ingredients and use to scrub tiles or your tub with a sponge

- 1 cup baking soda
- Warm water as needed

Toilet Bowl Cleaner

3

Create a paste of the following ingredients to clean your toilet bowl.

- Borax
- Lemon juice

Oven Cleaner

4

Remove the oven racks and crumbs, etc. Spread baking soda on the floor of the oven. Spray with water until it forms a paste. Leave overnight (it will turn brown). Remove in the morning with a sponge. Repeat if necessary.

- Baking soda
- water

All Purpose Cleaner

5

Mix water and vinegar in a spray bottle. Use to clean the kitchen sink, kitchen counters, and inside of the fridge.

**Great for removing mold/mildew

- 1 cup white vinegar
- 1 cup water

Carpet Deodorizer

6

This is a great way to remove unwanted odors from your carpet. Sprinkle baking soda on your carpet and let it sit for 15 minutes before vacuuming it up.

- Baking soda

Window & Mirror Cleaner

7

Mix the following ingredients in a spray bottle and use in place of commercial window cleaner. *Makes 3.5 cups*

- 3 cups water, preferably distilled
- ½ cup white vinegar
- 1 tsp dish soap
