Do Not

Place in Mixed Organics Cart

Plastic Bags • Other Plastic • Styrofoam

Liquids
Grease/Oils
Utensils/Metal/Foil
Animal Waste

How do I participate in the Mixed Organics program?

All food waste, coffee filters and grounds, tea bags, pizza boxes and paper towels can be included in the Mixed Organics cart.

1. Collect food waste from your kitchen and place into Mixed Organics cart along with yard debris.
2. The Mixed Organics cart will be picked up every week.
3. Remember to place organic material in the cart loose, just like before. No plastics, metals or foil.
4. You may layer paper in between food waste and yard debris to absorb wetness.
5. There are still some things that cannot go in the Mixed Organics cart, like dead animals, animal waste, liquids and grease. They contaminate the compost!
