

Energy Action Team

Vision: Corvallis has achieved energy security and net zero greenhouse gas emissions

Goal 1: By 2025, reduce per capita energy consumption in buildings by $\geq 50\%$

Goal 2: By 2025, all energy consumed in Corvallis will be 100% renewable energy

Goal 3: By 2030, eliminate net greenhouse gas emissions

2014 Activities

- Georgetown University Energy Prize
- Supported / Collaborated with
 - Seeds for the Sol (solar financing)
